

prop\_adjacent\_dependency\_relation\_mean

A heatmap visualization of the 'prop\_adjacent\_dependency\_relation\_mean' metric. The x and y axes are labeled with four categories: 'human', 'continue', 'explain', and 'create'. The diagonal elements, representing self-comparisons, all have a value of 1.000 and are colored dark blue. The off-diagonal elements represent comparisons between different categories. The values are: human vs continue (0.077), human vs explain (0.000), human vs create (0.077), continue vs explain (0.007), continue vs create (0.987), and explain vs create (0.007). The colors range from light blue for lower values to dark blue for higher values.

human	1.000	0.077	0.000	0.077
continue	0.077	1.000	0.007	0.987
explain	0.000	0.007	1.000	0.007
create	0.077	0.987	0.007	1.000
